Be just and fear not:
Let all the ends thou aim'st at be
Thy Country's, thy God's, and Truth's.

THE DAILY
PACIFIC COMMERCIAL ADVERTISER

THURSDAY, AUGUST 20, 1891.

The finding of one hundred tins of opium on the premises of the Port Surveyor most certainly has a suspicious look about it, and many will very naturally condemn that officer on mere suspicion, as was done with former occupants of the same office. The case, however, should be thoroughly investigated by the proper authorities, and the result of the investigation, whatever it may be, should be made public, and justice meted to the guilty parties. Till then, the officer should have the benefit of a suspension of public opinion.

A letter from Captain Marston, published elsewhere, will be read with interest. He gives the particulars of four ships with an aggregate of 10,700 tons burthen, building on the Clyde, which are to be registered under the Hawaiian flag, and engaged in the Hawaiian merchant service. This is a good omen for the future of this country, and shows that home and foreign capitalists stand ready to invest under our flag and to stand by our lumber, sugar and coal trade. It shows that there is no danger of Hawaiian commercial interests declining with the drop in the price of sugar. Ten thousand tons of steel shipping on the Clyde stocks at one time do not indicate any retrograde movement in our prosperity, but on the contrary it shows that our merchants mean to retain the profitable carrying trade of the country. Hurrah for the flag of Hawaii and for the owners and builders of the new steel fleet!

The citizens' petition to the Minister of the Interior unquestionably expresses the just complaint, not only of the signers but also of nine tenths of the residents of Honolulu. The management has failed to maintain a tram service such as was expected when the franchise was asked for and granted, and such as can reasonably be demanded of it. To say nothing of the condition of the rails on Beretania street which has been undergoing repairs for a year past, no valid excuse can be given of Nuuanu, Fort and Alakea streets, where the rails have in sections been continually in an unlawful state and dangerous to vehicles and life, and in the last named street should be torn up. The popular protest has been made none too soon, and it should be distinctly understood by the tramway corporation that unless the abuse of the privileges granted to it, without cost for right of way, be corrected, and the rails kept in such a condition as shall give satisfaction to the public, and as the charter calls for, measures will be taken to execute the penalty terms.

Death of Mrs. Antone Rosa.

Mrs. Joanna, beloved wife of Hon. Antone Rosa, died at her residence on Nuuanu avenue at 11 o'clock on Wednesday morning, August 13. The deceased lady had been ill for nearly seven months. Her first husband was a Mr. Ludd, brother of Mrs. J. O. Carter, and by whom she had three daughters—Helen, Mabel and Emily, who all deeply mourn the loss of a devoted and affectionate mother. She leaves also a mother, Mrs. Abigail K. Drew, and an only brother, Levi Drew.

The funeral services will be conducted at the house, and the procession will start for Nuuanu cemetery at 4:30 o'clock this afternoon.

An Overdue Vessel.

There seems to be but little hope for the safety of the schooner Pannonia. She left Jaluit, in the Marshall group, 95 days ago for this port. As this is 50 days longer than the longest trip on record the underwriters have concluded that she is resting at the bottom of the Pacific Ocean. The Pannonia had made a good cruise, from a business point of view, among the South Sea Islands, and was returning home. She had on board several missionaries as passengers. Captain Londall was one of the most experienced captains in the island trade, and the only ray of hope is that the schooner was wrecked and that her crew and passengers are on an island out of the track of ships.—[S. F. Examiner.]

OUR SAN FRANCISCO LETTER.

Per S. S. Australia, San Francisco, August 11, 1891.

(From our special correspondent.)

Sugar.

(Continued.)

A revised statement has been prepared in the Internal Revenue Bureau in regard to domestic sugar production, based on the latest returns. Producers estimates are: Sugar cane, 458,257,200 pounds; beet, 29,210,000 pounds; sorghum, 2,510,000; maple, 8,000,000; total, 567,977,200. This estimate is considerably in excess of that of the Treasury, which is: Beet, 25,000,000; sorghum, 2,000,000; maple, 8,000,000; total, 500,000,000. Estimating that beet and sorghum sugar will polarize 90 degrees or over, and be entitled to a bounty of 2 cents per pound, and that three-fourths of cane sugar will polarize 90 degrees and over, and one-fourth between 80 and 90 degrees, and that all maple will be between 80 and 90 degrees, and the amount of bounty to be paid will be as follows: On cane sugar, \$9,549,375; on beet sugar, \$500,000; on sorghum sugar, \$40,000; on maple sugar, \$140,000; total, \$10,229,375.

The Bureau of American Republics has issued carefully prepared statistics of the sugar industry of Cuba for the last ten years, showing the total production of the sugar and molasses in tons to be as follows: 1886, 918,737; 1887, 790,593; 1888, 814,510; 1889, 661,680; 1890, 763,558. The exports from all the ports of Cuba of sugar and molasses during the same period has been over 90 per cent to the United States. The balance went in very small proportions to England, France and other European countries. The bureau has information that there has just been registered in Glasgow a new commercial undertaking called "The Sugar Trading and Finance Company," with a capital of \$250,000 in \$50 shares, the object of which is to buy and sell sugar and other produce and to establish agencies in the West Indies for that purpose.

Reciprocity With the West Indies.

The new Spanish Reciprocity Treaty and the new treaty with the Republic of San Domingo have been published. Sugar comes in free, as well as molasses, coffee and hides. In return, the principal breadstuffs are admitted free into Cuba, Porto Rico and San Domingo, and a 50 per cent reduction is made on most articles of export to those countries.

Nicaragua Canal.

The Board of Directors of the Nicaragua Canal Company have appointed J. L. Rathbone of San Francisco, formerly consul general to Paris, a director, in place of Henry A. Parr, resigned. William L. Merry retains his place as general agent in San Francisco.

Messrs. Louis Sloss & Co. have been made financial agents of the company in San Francisco, and continue to take subscriptions to the stock.

British Capital in America.

The San Francisco Breweries (Limited), the company which runs the local beer trade, is in trouble. It will be remembered that the principal breweries in San Francisco were bought by English capitalists about a year ago. Preferred stock was sold at £13 and ordinary at £10, and now they bring £6 and £4 6s. respectively. No dividends have been paid and Ernest A. Denicke, formerly manager of the Fredericksburg brewery at San Jose and now general manager of the company, has been called to England to explain why. Local brewers look for the company to wind up its affairs before long.

English capitalists have offered to buy the Rand, McNally company and the J. M. W. Jones company, both of Chicago, for \$3,000,000. The companies are among the foremost book publishers of America.

The supreme court of Mexico has decided to hear Senora Ruiz Burton's case in her suit to oust the International Company of Mexico from 500,000 acres in Lower California. Mrs. Burton's claim dates back to 1804 and covers the land on which the city of Ensenada is built. The International Company is an English corporation and will suffer severely. The grant of the land was made by the Mexican government, which has been idle for 14 years, has been purchased by an English company and will at once be opened up.

American News.

Thirteen of the most prominent citizens of Petosky, Michigan, have been arrested, and charged with the murder of two men fifteen years ago. The evidence against them is conclusive.

The "Olive Nest," a branch of the Bohemian Club, has rented a country place in San Mateo county, California, and will at once equip it. The new organization will not tolerate the commercial element in the club.

Luigia Verdi, one of the owners of La Vaca del Popolo, the Italian daily here, committed suicide at Eureka, Nev., on the 7th.

A mammoth cave has been discovered in Ohio that is thought to be as wonderful as the great Kentucky cave. One of the hallways is over 600 feet in length.

A Boston inventor has discovered a process by which rebellious metal can be easily forged and tempered by electricity.

A storm in Williamsport, Pennsylvania, on July 30th, destroyed thirty-five houses.

In a riot at Lake Charles, Louisiana, on August 4th, fourteen men were killed and many wounded. It is reported that the rioters massacred men, women and children wantonly.

A fire in Chicago on August 3d destroyed \$1,000,000 worth of property. Chairman Quay, of the National Republican Committee has resigned.

The farmers of North Carolina have denounced Grover Cleveland, and do not want him as the Democratic Presidential candidate, and the Southern farmers generally are opposed to him.

Bob Ingersoll's private secretary was killed in a quarrel with a man who occupied a house with him. The shooting grew out of the difficulties between the wives of the two men.

McKinley, the high-tariff candidate of the Republicans of Ohio, for governor predicts a great victory for his party and the McKinley bill this fall.

Secretary Blaine's health is improving steadily.

Pittsburg manufacturers are returning to the use of coal for fuel, in place of the natural gas, which is becoming exhausted.

The annual reunion of the Grand Army of the Republic at Detroit, Michi-

gan, the fore part of August was attended by 200,000 visitors.

Chicago is to have a big elevated railway system to be built by Jay Gould and other capitalists at a cost of \$25,000,000.

Thirteen people were killed in a collision on the Lake Shore road near Syracuse, New York, on August 6th.

Foreign News.

People interested in the importation of American beer into England have held a meeting, and passed resolutions opposing the bill now before the House of Commons, intended to shut out the American product.

Russian Jews that have just arrived in Boston assert that the only punishment imposed in the Czar's domain for killing a Jew is a fine of twenty rubles. They tell tales of dreadful cruelty practiced upon themselves and Hebrews generally.

William O'Brien and John Dillon, the Irish agitators, have been released from prison, after serving their sentences of six months. They say they will no longer submit to Parnell's leadership.

De Blowitz, the famous Paris correspondent of the London Times, declares that his story regarding the dismissal of Bismarck was true.

France is taking active interest in the World's Fair, and will make a great exhibit.

It is reported that Italy has concluded a loan of £10,000,000 with a British syndicate. Italy's debt is now £1,167,000,000.

The alliance between France and Russia is regarded as a menace to the peace of Europe, and as a check to the power of England.

A Berlin despatch makes the assertion that the Emperor is a confirmed morphine fiend, and that he is physically and morally succumbing to the habit.

Dispatches from Foo Choo, China, of August 1, states that great riots are expected and that the natives threaten to kill all the foreigners. The United States government has ordered the cruiser Charleston to proceed to China at once for the protection of American subjects. Other war vessels will follow as soon as possible.

A collision between Japanese vessels off the coast of Japan, on July 12, resulted in the loss of 260 Japanese.

Half savage natives of Paraguay have attacked an isolated village in that country and killed 150 men, women and children. The massacre was followed by a wild orgie.

On August 5, Queen Victoria prorogued Parliament and expressed satisfaction with its labors.

The famine in India is so severe that many deaths are occurring from starvation.

French bankers are to erect an astronomical observatory on Mont Blanc.

News comes from China that the leaders of the recent riots are all to be executed under a royal decree.

The Government of Salvador has seized the Pacific Mail steamship Panama, for the alleged violation of maritime laws.

A dispatch from Berlin on August 9th says that Emperor William is in very poor health and that his condition is serious.

It is rumored from Hayti that the rebel general Propheo is about to invade Haytian territory with an armed force.

Yellow fever is prevalent in Ecuador and smallpox is raging in Lima, Peru.

The dory, Sea Serpent, has successfully crossed the Atlantic from Boston to London.

Reliable information from European correspondents is to the effect that Europe will need 280,000,000 bushels of American wheat this year.

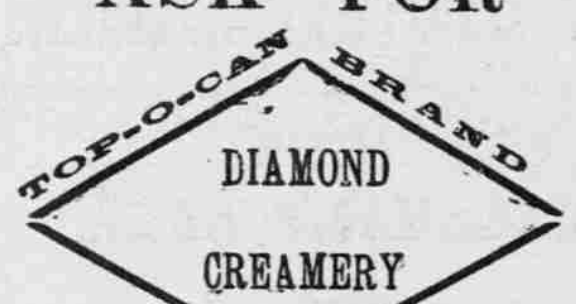

The White Star Line steamer Majestic has reduced the record from Koch's Point, Queenstown, to Sandy Hook, New York, to 5 days, 18 hours and 8 minutes, beating the record of the City of Paris, which was 5 days, 19 hours and 18 minutes. It is thought that she can do still better. Her best day's run was 509 knots, and she averaged throughout 20.10 knots an hour, or 2.948 minutes per nautical mile.

ADDITIONS TO THE HAWAIIAN FLEET.

10,790 Tons of New Steel Shipping.

GLASGOW, SCOTLAND, July 18, '91.

MR. EDITOR:—Dear Sir: As I am on the spot, I will give you a short description of the additions to the Hawaiian merchant marine, now building on the Clyde.

First: A steel ship of about 1500 tons register, building at Port Glasgow, by Robert Duncan & Co., for Captain Newell, will be launched in August, and will probably load for your port.

Next is a steel bark, to be built by Charles Connell & Co., of Whiteinch, for C. Brewer & Co. Her dimensions are—length register, 208 feet; beam, 38 feet; depth, 19 feet. Will be about 900 tons register, and carry 1600 tons dead weight of 2240 lbs. to be launched in December next.

The same builders are building for Captain O. Kustel a steel four masted ship, to carry 3300 tons dead weight, Dimensions: Length, 260 feet; beam, 43 feet; depth, 23.8 feet; to be delivered in January, 1892, and to be named "Hawaiian Isles."

Messrs. Robert Duncan & Co. have contracted to build for Captain Schnauer (formerly of the bark Harvester) a four-masted steel ship of the following dimensions: Length, 300 feet; beam, 48 feet; depth, 25 feet; to carry 4300 tons dead weight; to be delivered in April next.

All the above vessels are to be built first class at British Lloyds, and are to be first class in every respect, all having direct acting steam windlasses; three last to have Murray Brothers' latest improved steam winches, to be built in San Francisco; the two last-mentioned ships are to have their shipped out and put in here.

All these vessels are to be registered in Honolulu.

Very respectfully,
W. H. MARSTON.

Care of Thomas Skinner & Co., 31 St. Vincent Place, Glasgow.

To those who need a pleasant Tonic for any kind of debility, we can recommend "Glenale's" as the best. For sale by HOLLISTER & CO.

Hawaiian Hardware Co., L'd.

MONDAY, August 17.

The S. S. Zealandia brought us some useful things last week; articles needed by every one.

Do you have much trouble carving a fowl? Some people do because they don't know how to go about it, and others who do understand it, haven't the right sort of knife to do it with. Our Eastern buyer sent us some "Jointers" per last steamer that are just the thing for the work. Stick the blade in the fowl and it finds the joints all right without any help from anyone. They are in ivory handles and can be almost given away.

Another good thing for the household is the "family glue pot." A handy little thing, no trouble to anyone; just fill the container with hot water (the glue is already in the glue pot) and before you can say "Scat" the preparation is ready, and you can cement a broken engagement or anything else.

We've something for grocers too! Cheese Boxes, nice ones with wire cloth—fine enough to exclude anything in the creeping line. Another thing for either grocers or private families. We refer to wooden covers for flour barrels.

Bird Cages plenty, now. Brass or painted, cheap or expensive; you can get what you want. Our brass ones are made with a sort of false bottom which prevents the bird escaping when you clean the cage. If you are fond of your bird this is the kind of cage you want.

Which do you prefer, plain glasses or those with your initial engraved on them? You can get the initial ones from us as cheap as the plain ones and very much handsomer.

We've imported a stove suitable to the requirements of restaurant keepers or a large family. It looks as though it would be a good thing for anyone who cooks. We prefer the Fischer steel range but it's a trifle more expensive at first but saves enough fuel in the long run to pay for itself.

We can show you a larger assortment of plated ware than ever before. The lot received last week is made up of odd designs and are very fair imitation of the solid goods; the only difference is in the weight. It's not every one who can detect it.

We have wood spoons too, for the kitchen; they are not an imitation of anything and their identity is not concealed by platings of anything; they are just plain wood and especially adapted for kitchen use.

Another lot of Haviland China has arrived and among the choice pieces are some exquisite Ice Cream and Salad Sets. If you are anxious to be "in the swim" you better come now and make your selection. Haviland is just as cheap as white ware and certainly very much handsomer. If you've never used it you have no idea what an improvement it makes in the appearance of your table.

(REFRIGERATORS)

AND

ICE CHESTS

After an imposing experience years, and considerable ill health, I have been enabled to buy a fine-lined Refrigerator which we had to take back on account of its failure to do any of the requirements of a refrigerator, we have at last something, made on scientific principles, which will keep your food and your food in better condition than any yet introduced in this market.

The Gurney,

of which this diagram shows construction and circulation, in every respect, as many people who have substituted them can testify.

The EDDY Refrigerators and Ice Chests, of which we carry a line, have ways given satisfaction. They are plain, well made and durable. The WHITE MOUNTAIN ICE CREAM FREEZERS, of which we have sold hundreds, are generally known and appreciated. We have an assortment on hand from a large invoice just received from the factory. These are the patterns.

We keep reliable goods and sell at reasonable prices.
